INTRODUCTION

THE QUANTUM OF DRIVING

Revuelto didn't just break the mold; it pioneered a new era as Lamborghini's first HPEV (High-Performance Electrified Vehicle). Drawing directly from the brand's legendary **SV heritage**, the new **limited-edition** derivata takes that revolution a decisive step further. It represents a masterclass in **motorsport-delivered engineering**, distilled into an exclusive run of **1,963 units** worldwide.

Revuelto SV fuses the raw, visceral power of the iconic **naturally aspirated V12** with a **sharpened aerodynamic profile**, amplifying the connection between car and driver. The chassis, control systems, and powertrain have been recalibrated to deliver an **instinctive, immediate response**. The advanced aerodynamic concept works in perfect synergy with the vehicle's dynamics, enhancing downforce efficiency and **stability**.

The result is an uncompromised dialogue between human and machine: a **hyper-focused driving experience** that delivers supreme confidence on the track, yet remains effortlessly sophisticated for everyday driving. This is Lamborghini's performance DNA, unleashed.

01

DESIGN & PERSONALIZATION

EXTERIOR DESIGN

The exterior of Revuelto SV is a masterclass in Lamborghini philosophy – an inseparable fusion of **striking aesthetics** and **uncompromising performance**. As the first sport-derived evolution of our flagship HPEV, the proportions have been further sharpened to express one intent: pure, unadulterated driving.

Every line serves a purpose. The commanding silhouette remains instantly recognizable, enhanced by a **functional rear wing** that optimizes stability. At the front, a newly sculpted **bumper** maximizes **brake cooling efficiency** and **high-speed precision**. The profile is completed by motorsport-inspired new forged **monolock wheels**.

Almost entirely crafted from **carbon fiber** and elevated by a **dedicated livery** that highlights the limitless potential of Lamborghini **personalization**, Revuelto SV commands attention with its clean, sharp, and luxurious figure.

INTERIOR DESIGN

The interior embodies Lamborghini's **Feel Like a Pilot** philosophy: a symmetrical, **driver-focused** environment designed entirely in service of pure driving thrill.

For this evolution, the cabin adopts a darker, more aggressive, and sport-oriented character. The standard interior is now swathed in **Nero Cosmus Corsa Tex** and anchored by track-focused **racing bucket seats** (optional), while newly introduced **carbon fiber door panels** reinforce the vehicle's lightweight, motorsport pedigree.

The model's **racing soul** finds its ultimate expression in a newly curated, exclusive **livery collection**. Available through Lamborghini's **Optional** catalog and **Ad Personam** program, up to **four dedicated SV liveries** enable customers to amplify the car's bold, motorsport-inspired character. Each design serves as a dynamic signature, accentuating the sharp lines of the bodywork and creating an unmistakable presence from the first glance.

PAINTED LOGOS

Carrying forward a legacy defined by **uncompromising performance**, Revuelto SV bears the ultimate hallmark of Lamborghini's most elite creations. The iconic **painted SV logos** serve as a bold **visual signature**, instantly identifying this model as part of the brand's most exclusive lineage.

Available in **four distinct versions** and further enriched through the bespoke **Ad Personam** program, these striking graphic elements do more than just decorate the bodywork; they permanently stamp the car with its track-born identity.

DROMOS MONOLOCK RIMS

In the purest Lamborghini SV tradition, the newly designed **20"-21" forged rims** are a masterclass in **weight reduction** and **striking, purposeful aesthetics**. Infused with authentic, race-derived **monolock technology** directly transferred from the motorsport world, they are engineered for **maximum precision** and **structural strength**.

The **DROMOS rims** are offered in **five distinct finishes**, serving as a blank canvas for personalization. To complete the look, the dedicated centerlocks can be customized in **twelve different colors**, perfectly matching the brake calipers. The result is a compelling balance of cutting-edge **innovation** and **racing heritage**.

VISIBLE CARBON FIBER

The extensive use of **visible carbon fiber** throughout the vehicle is a tangible testament to advanced engineering and elite craftsmanship.

For this sport evolution, the **exterior carbon fiber offering** is extensive, allowing customers to wrap the upper, lower, or extended **body packages** in a **shiny** or **matt finish**. This **lightweight philosophy** flows seamlessly into the cabin, where the new **carbon fiber door panels** anchor the driver-focused cockpit.

The result is a profoundly **sportier presence** that reinforces the car's exclusivity and underlines its uncompromising, **high-performance identity**.

AD PERSONAM

The journey of tailoring your Revuelto SV is virtually limitless.

From model-specific **carbon fiber components** to the boundless creative freedom of the **Ad Personam** program, every layer of personalization offers **exclusive exterior shades** and **bespoke cabin finishes**. It is the ultimate invitation to shape every element of your Super Veloce, ensuring your vehicle is truly unique.

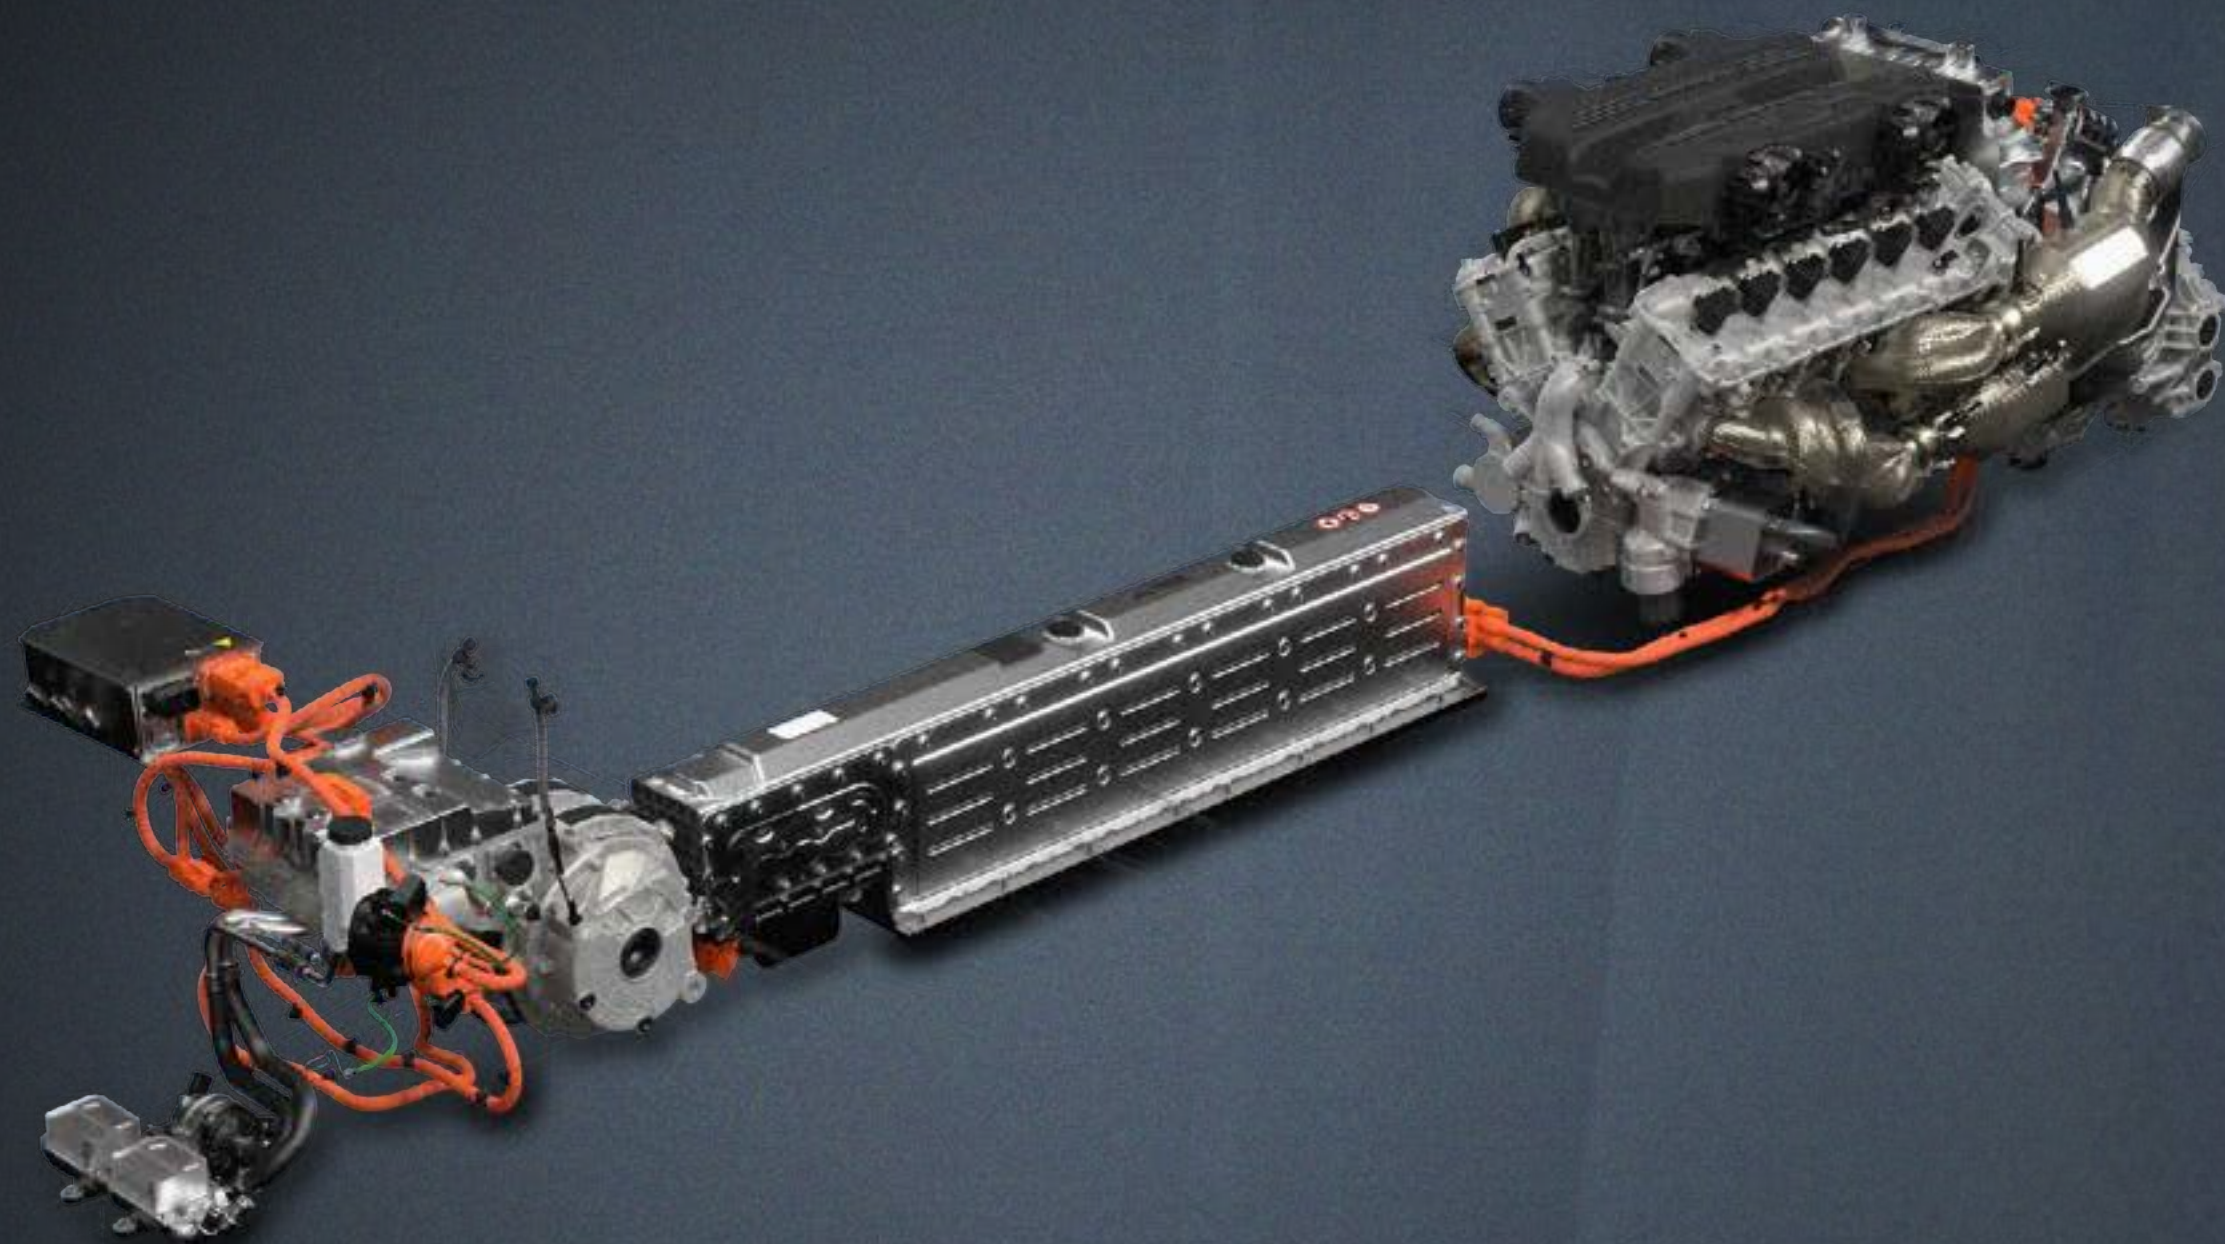

02

PERFORMANCE

V12 POWERTRAIN & GEARBOX

At the core of Revuelto SV is a powertrain delivering **1,065 PS** and **1,425 Nm** of torque. **Longitudinal performance** is taken to a new level, delivering sharper responses and an even more immediate connection between driver and machine. To match this heightened performance, an advanced exhaust bubbling strategy alters the exhaust's acoustic character based on the selected driving mode, offering refined silence in **Strada**, a sustained, consistent roar in **Sport**, and a thunderous, high-intensity crescendo in **Corsa**.

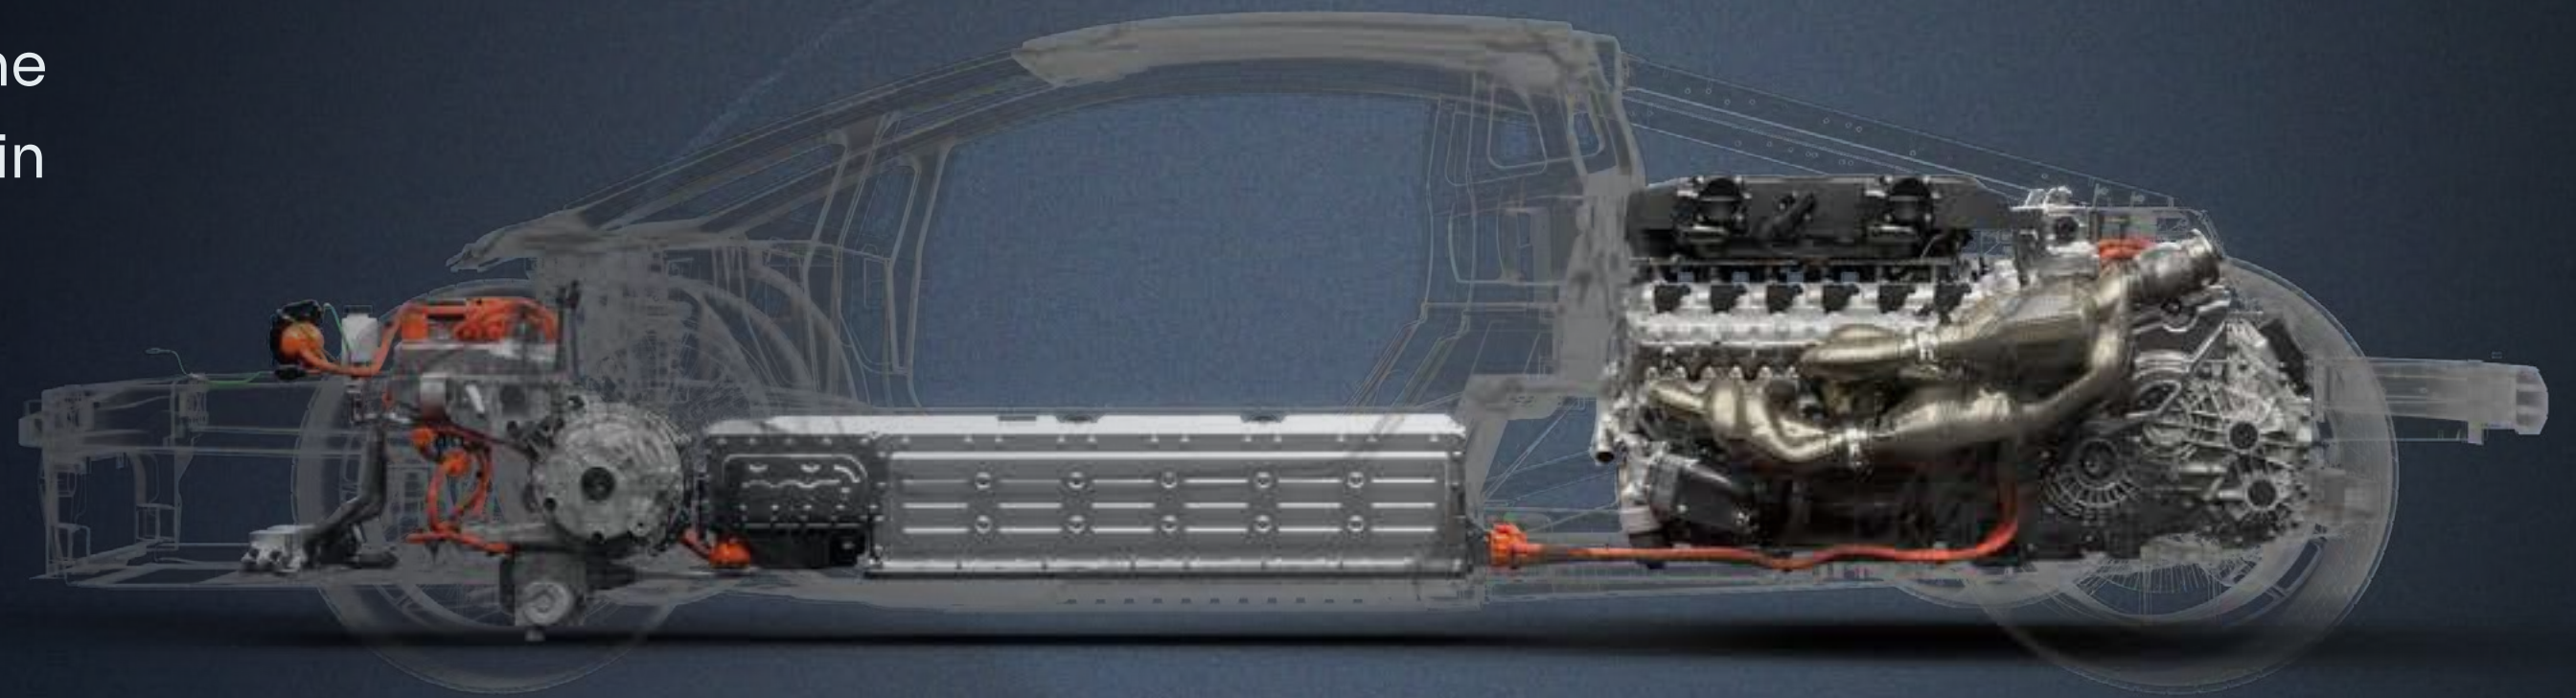

Power is channeled through a **re-engineered transmission** featuring an automated Sport strategy that is **30% more dynamic**, delivering a more engaging and performance-focused driving experience. **Optimized gear management** keeps the powertrain in its ideal performance range, enhancing the sense of precision and control behind the wheel.

HV BATTERY

To ensure consistent, uncompromised performance, the **electric power system** has undergone a profound evolution. The **high-voltage battery** now boasts a phenomenal **90% increase** (7.3 kWh) in capacity alongside a **35% boost** (190 kW) in **peak power output**. This engineering leap translates directly to the tarmac, delivering the endurance required to sustain maximum electrical deployment.

*vs. Revuelto

WEIGHT-TO-POWER

The uncompromising spirit of Revuelto SV is forged in its extraordinary **weight-to-power ratio** (1.66 kg/PS). Through the extensive, calculated use of advanced **carbon fiber components** across both the exterior and interior, every ounce of excess mass has been systematically stripped away. This **disciplined weight reduction**, paired with the monumental power under the hood, achieves a new pinnacle of **mechanical efficiency**.

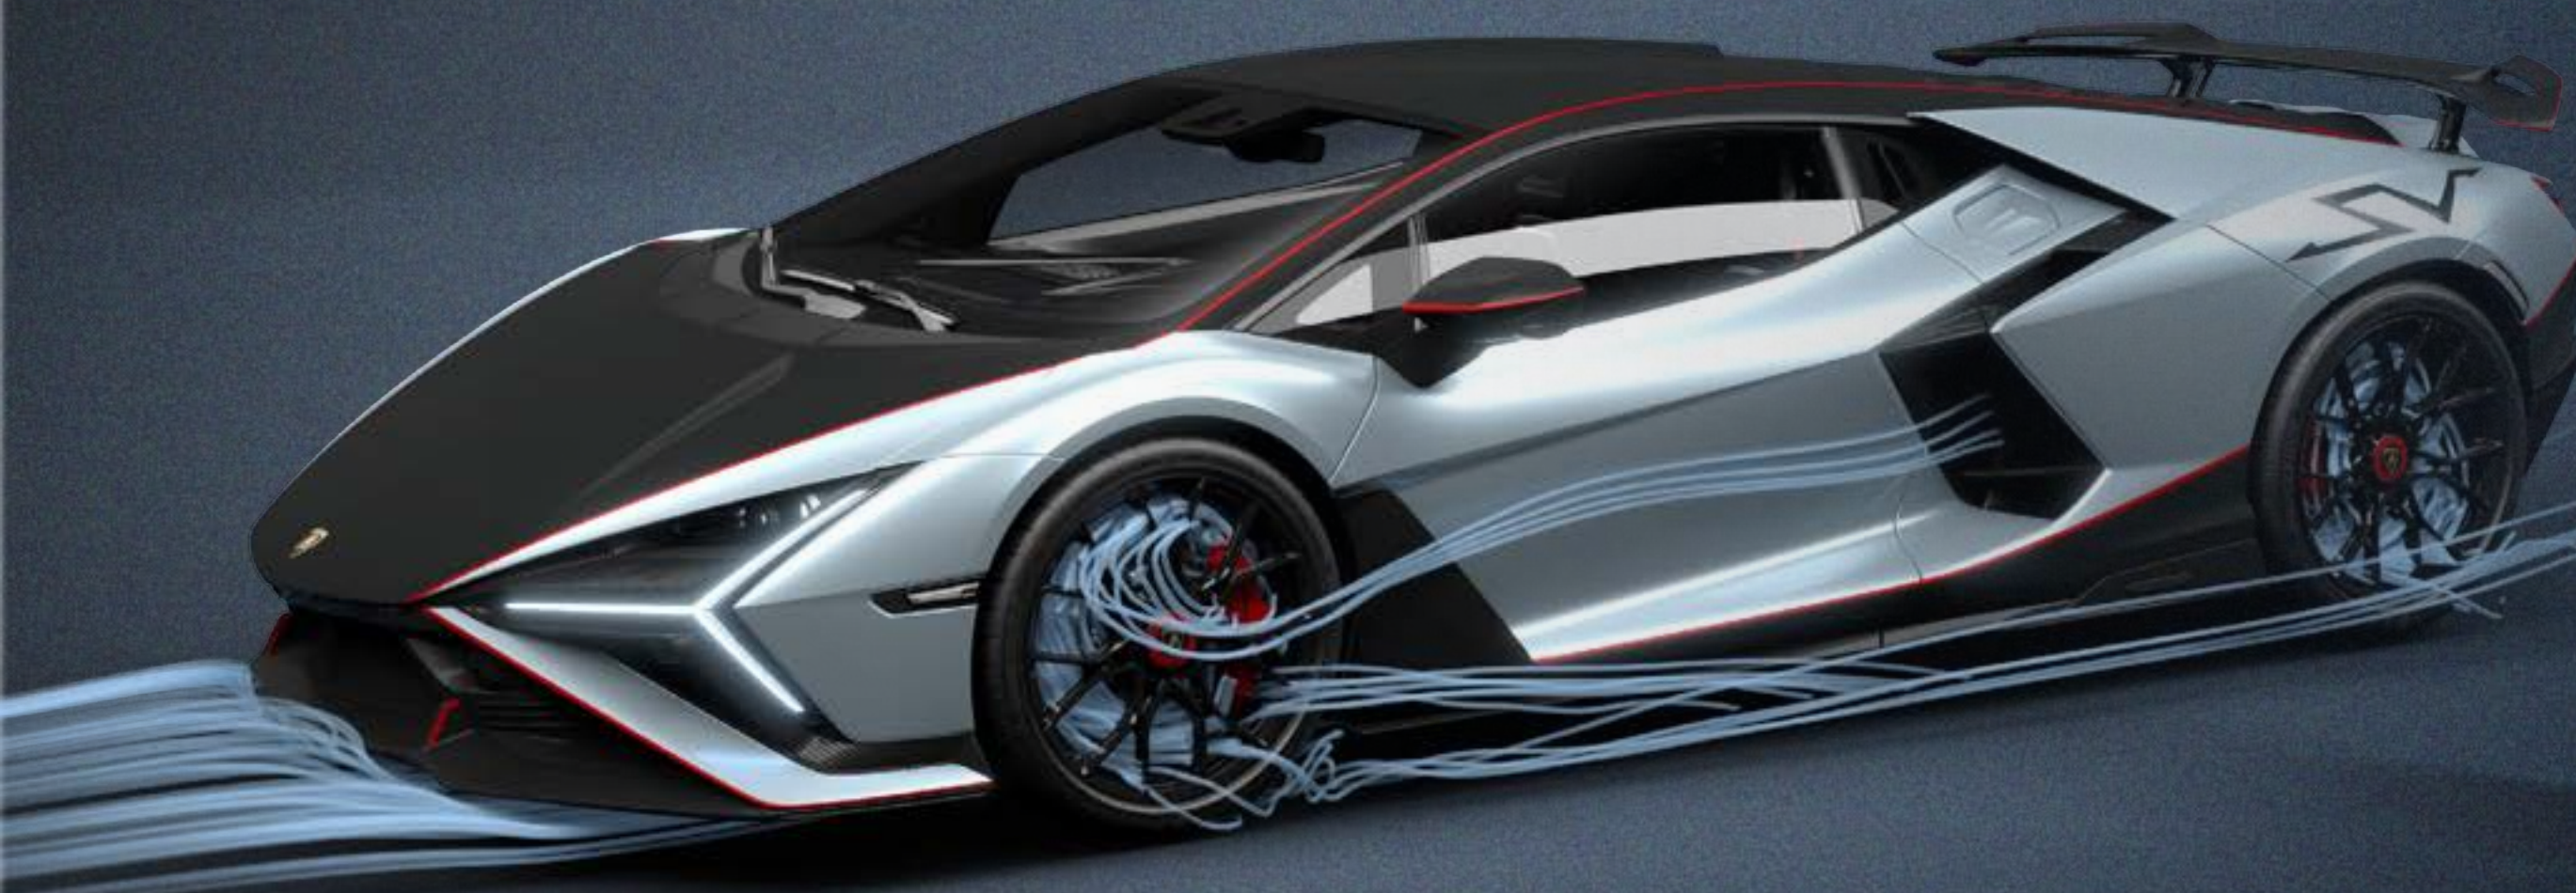

The result is an incredibly **agile, hyper-responsive** machine that converts every unit of power into instantaneous, breathtaking velocity.

03

DRIVING DYNAMICS

CCM-R PLUS BRAKING SYSTEM

Stopping power reaches the gold standard with the **motorsport-derived CCM-R Plus brake system**, a technology born from the racing world. Engineered for relentless endurance, the system features **larger dimensions** for **enhanced braking force**, alongside race-grade ventilation that optimizes **thermal efficiency** under extreme loads. A cutting-edge **floating connection** ensures superior **stability** and **reliability**, delivering absolute **consistency** even during the most demanding track sessions. A braking system engineered not only to decelerate but to instill the ultimate confidence to push harder, lap after lap.

DAMPERS & SUSPENSION

Revuelto SV is anchored by **manually adjustable passive dampers**, enabling a bespoke setup tailored to every unique driving style. This high-performance system delivers **precise control** and **optimized damping performance**, ensuring uncompromised confidence through every corner. To master the track, the **refined suspension geometry maximizes damper effectiveness** over aggressive curb impacts, allowing the vehicle to settle instantly. Whether smoothing out unpredictable road surfaces or absorbing the intense forces of a hot lap, this configuration strikes a balance between **peak track performance** and **refined comfort** in all driving conditions.

AERODYNAMICS

Revuelto SV's **aerodynamic profile** undergoes a monumental evolution, leveraging **advanced airflow management** to unlock unprecedented track dynamics. The updated aero package delivers an astonishing **80% increase in downforce**, anchoring the chassis to the tarmac for **maximum high-speed cornering stability**.

A 100% increase in front balance enables **sharper turn-in** and **heightened front-end grip**. Completing the transformation, a **60% improvement in overall aerodynamic efficiency** ensures the vehicle cuts through the air with uncompromised acceleration and blistering top speed.

RACE TIRES

Power meets the road through custom-developed **racing tires** engineered exclusively for Revuelto SV. The advanced **semi-slick design** features a rapid **warm-up compound** that delivers immediate grip from the very first lap, while a **thermally stable** structure ensures consistent precision under sustained track use. With a **13% increase in overall grip** and a **5% boost in full-throttle traction**, this dedicated compound radically improves dry lateral and longitudinal grip, resulting in higher cornering speeds, shorter braking distances, and explosive acceleration.

PILOTA MODE

Revuelto SV introduces **Pilota**, a new **driving mode** engineered to unlock the full performance potential and elevate driver engagement.

At its core is a revolutionary **stability control system** that delivers unprecedented balance and sharpness while keeping the chassis perfectly composed even over aggressive curb impacts and sudden elevation changes. This is paired with a **next-generation ABS calibration** designed to significantly reduce stopping distances while enhancing mid-corner braking performance for razor-sharp positioning. To ensure ultimate control over the tarmac, the new **traction control system** infuses the vehicle with authentic **GT3 racing technology**. Fully customizable via a dedicated rotary switch on the **steering wheel**, it allows the driver to fine-tune power delivery according to circuit layout, tire and external conditions, and driving preferences.

04

TECHNOLOGY

ADAS

Engineered for **performance without compromise**, advanced **ADAS** technology enters a more extreme driving dimension. Utilizing a pioneering architecture anchored by **twenty-three highly precise sensors**, the system delivers unwavering **safety and reliability**, supporting the driver both on the track and in everyday driving scenarios. The elevated standard offering is now richer than ever; the **Parking Pack** is fully integrated, enhancing daily usability and low-speed control without compromising the vehicle’s raw, unadulterated supersport character.

Below is an overview of the **ADAS packs*** available:

STD ADAS PACK

- Active Lane Departure Warning
- Cruise Control (Passive)
- Advanced driver attention and drowsiness monitor
- Optical Parking System 12 channels
- TopView

VISIBILITY PACK: SURROUND ASSISTANCE

- Side assist
- Rear Cross Traffic Alert
- Optical Parking System
12 channels + Intersection assist

FULL ASSISTANCE PACKAGE

- Adaptive Cruise Assist
- Emergency Assist
- Safety Distance Warning
- Traffic light recognition
- Pre-sense front (autonomous emergency brake)
- Turning & Collision Avoidance Assistant

**Please note: Availability of services depends on market requirements.*

CONNECTED SERVICES

Lamborghini Connect is an exclusive technology suite that rewrites the game to bring the customer experience to a whole new level. The **Connected Services*** available for Revuelto SV are:

CONNECTED NAVIGATION

Exclusive features to deliver real-time traffic, POI reviews, parking, and fuel or charging station info for confident and efficient travel.

- Real-Time Traffic Information
- Online POI Search
- 3D City View
- Parking Information
- On-Street Parking Information
- Fuel Station Information
- Charging Stations Information
- Online Smart Routing
- First-Mile Navigation
- Traffic Information (VICS)
- What3Words

SAFETY & SECURITY

Lamborghini safety and security services offer constant support in emergencies or theft, with remote alerts and driving behavior monitoring for total control.

- Public Emergency Call
- Private Emergency Call
- ERA GLONASS
- Anti-Theft Alarm Notification
- Valet Alert
- Curfew Alert
- Geofencing Alert
- Speed Alert
- Lamborghini Vehicle Tracking System
- Dashcam**

ENTERTAINMENT

Make every moment on the road more immersive and enjoyable thanks to cutting-edge entertainment services.

- Online Radio
- Smartphone Interface

**Please note: Availability of services depends on market requirements.*

***New*

CONNECTED SERVICES

FUN-TO-DRIVE

Innovative services designed to elevate your driving pleasure and sharpen your skills behind the wheel.

- Board Diaries
- Memories Recorder**
- Lamborghini Connected Telemetry 2.0 with Track Studio**

PEACE OF MIND

Remotely operate and monitor your Revuelto directly from your smartphone. Thanks to Lamborghini's remote services, you're always in full control-even from a distance.

- Vehicle Status Report
- Remote Lock & Unlock
- Remote Horn & Lights
- Car Finder
- Remote Trip Statistics
- Over-the-Air Infotainment Update
- Amazon Alexa Integration
- Remote Charging**
- Remote Departure Timing**
- Remote Climatization**

**Please note: Availability of services depends on market requirements.*

***New*

NEW LAMBORGHINI VISION PACK

Lamborghini Vision Pack is an optional add-on that leverages 3 cameras with up to 4K resolution and a dedicated control unit to introduce **Telemetry 2.0**, **Memories Recorder**, and **Dashcam**.*

CONNECTED TELEMETRY 2.0 WITH TRACK STUDIO

The **Telemetry** app lets drivers track performance, record telemetry data, and capture onboard videos. After driving, users can review videos and data via the in-car HMI or on UNICA. For deeper performance analysis, **Track Studio** offers a new platform for laptops and tablets.

MEMORIES RECORDER

Memories Recorder lets customers capture key driving moments using the infotainment system or steering wheel controls. It records clips of **up to 2 minutes**. Videos can be reviewed, personalized and shared via the infotainment system or UNICA.

DASHCAM

Dashcam is an application that enhances driving safety. In case of an impact or emergency maneuver, it automatically records **up to 40 seconds before and 20 seconds after the event**. Videos can be viewed via the infotainment system or UNICA, with details like position and timing.

**Please note: Availability of services depends on market requirements*

05

ACCESSORI ORIGINALI

ACCESSORI ORIGINALI

Lamborghini Accessori Originali is a wide range of products created to make the absolute most of your Lamborghini by equipping it with **specially designed accessories**.

Below is an overview of the **Accessori** items available for **Revuelto SV**.

CARE & SAFETY

- Protective Premium Car Cover
- Steering Wheel Cover
- Emergency and First Aid Kit
- Infotainment Screen Protector
- Parking Cushion

CHARGING EXPERIENCE

- Low-Voltage Battery Maintainer
- Wall Brackets
- Wall Dock
- Domestic Charging Kit
- Pedestal Dock
- Mode 3 Cable with Bag

EXTERIOR

- Carbon Fiber Engine Cover - Shiny
- Carbon Fiber Engine Cover - Matt
- Valve Caps with Logo

INTERIOR

- Phone Holder

USABILITY

- Winter Tires

For more details and information about these products, please contact your **Lamborghini Dealer**.
